LIVING HISTORY

Civil War Days was founded thirty-two years ago by Maureen Rivers and Carl Clink in Bartlett Park behind the Newland House in Huntington Beach. Today we host dedicated re-enactors from all over the United States in this glorious event that is always free to the public. In years past Huntington Beach hosted the annual Western region encampment of the Grand Army of the Republic, where veterans of the Civil War met to reminisce on their wartime experiences and promote veterans' advocacy. We continue Huntington Beach's proud historic tradition by promoting historical education and making history come alive for all of you. Enjoy your stay in 1864 and join us in commemorating the 160th Anniversary of the Civil War! 🇺🇸

COLORED TROOPS

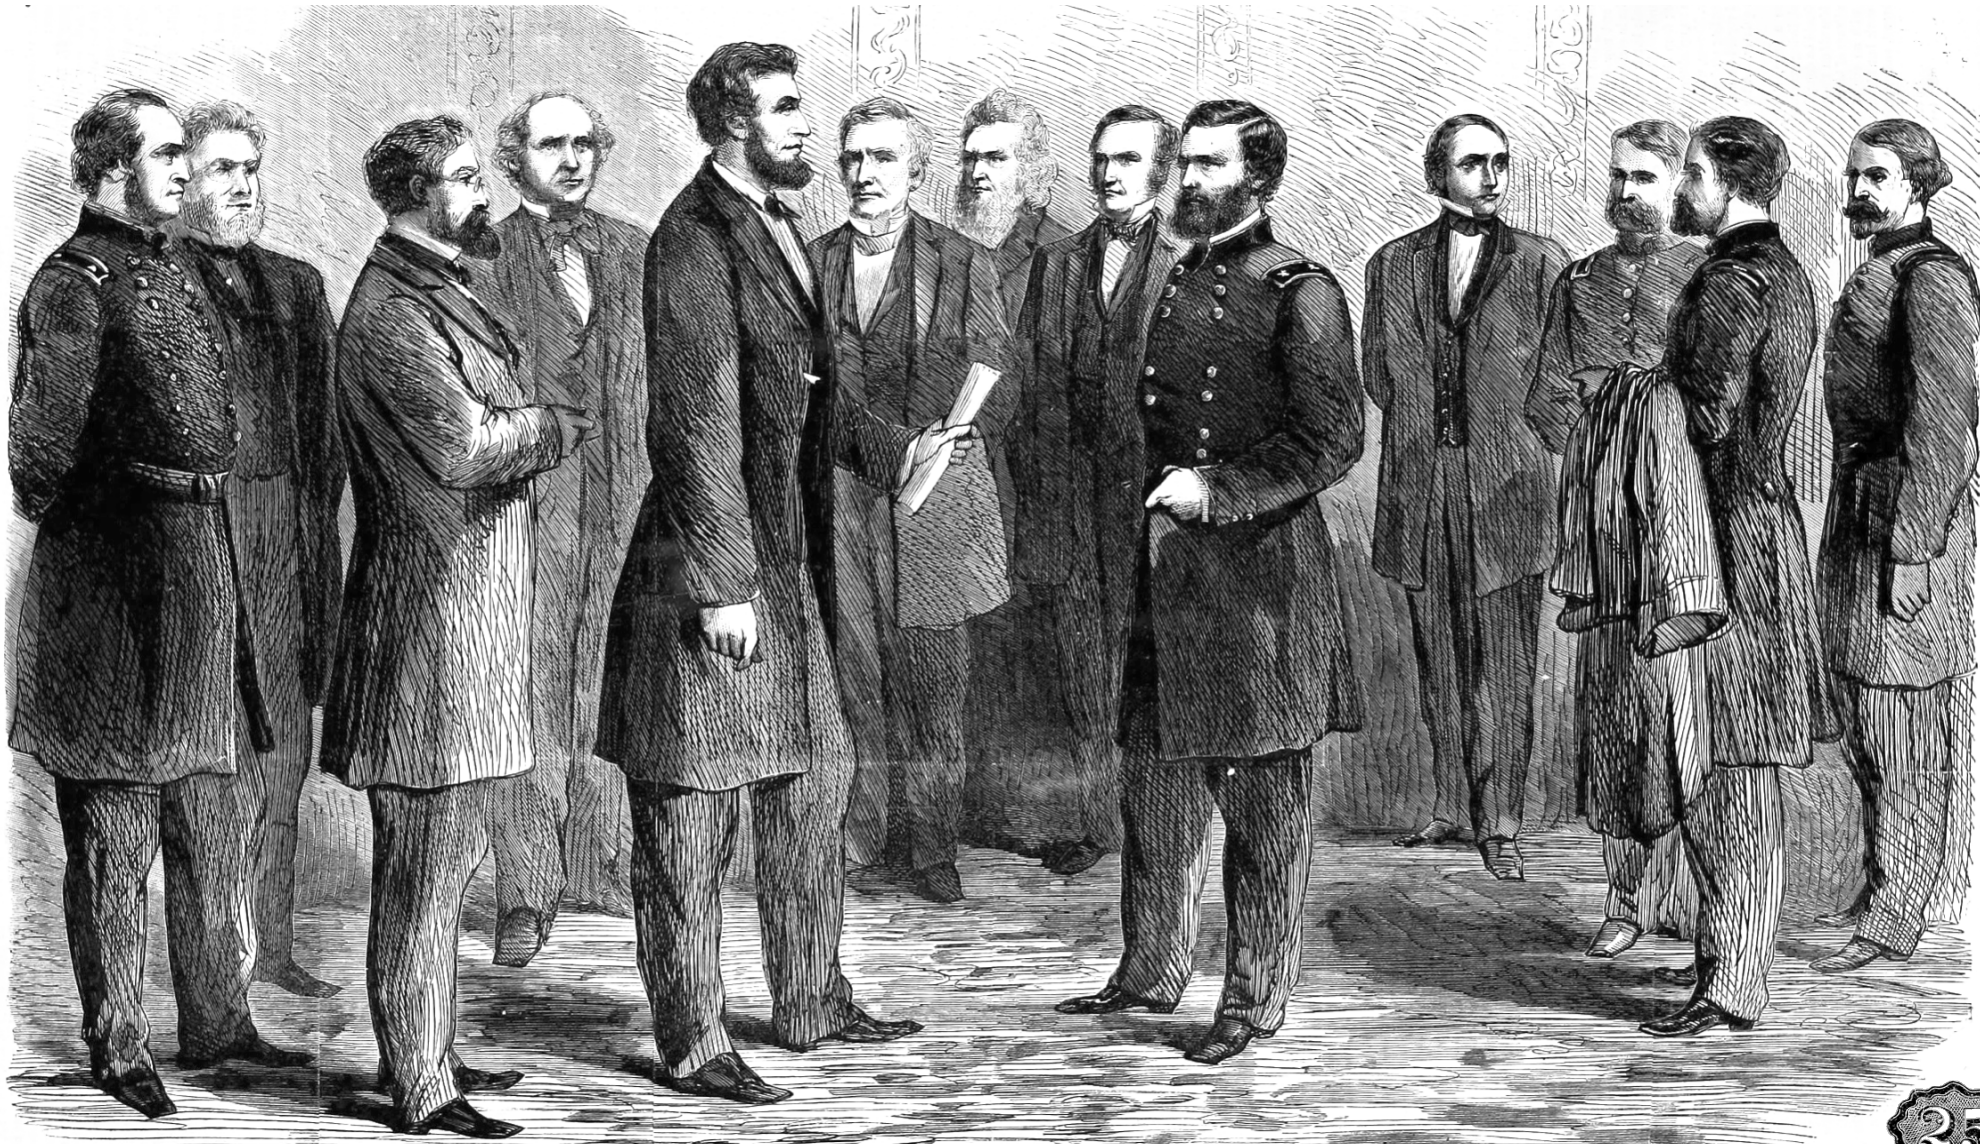

The officers and men of the 97th Regt, United States Colored Troops will share their experiences serving in the war as some of the first African-American soldiers in uniform since the days of George Washington! They will talk about the history of the USCT and other colored regiments, their engagements at Port Hudson and along the Combahee, and the political situation in the country, including the efforts of Frederick Douglass. They will also showcase their role in the army - for they are no mere infantrymen but *ENGINEERS*- constructing and destructing all & sundry for the cause of Liberty.

U.S. COMMISSARY & QUARTERMASTER

What did soldiers eat? How were they clothed and supplied? What exactly is hardtack? Visit our supply depot to learn about the logistics of the War! Talk with the *Brigade Commissary* Capt. D. Sutton, & the *Brigade Quartermaster*, Capt. J. Godwin, and other soldiers and contractors working to support the forces in the field. Stop by the field kitchen and see fine meals prepared for the mess! Compare uniforms and equipment, and even make your own corps badge! ✕

MONUMENTS

HONORING BRITISH VETERANS OF
THE AMERICAN CIVIL WAR

Thousands of soldiers and sailors from the United Kingdom fought in the American Civil War for both North and South- despite this, most veterans who returned home to the UK were not recognized for their service, did not receive pensions, and many of their graves were left unmarked. *The Monumental Project* works to honor these veterans with a fitting monument in the UK and to place US headstones on the graves of these forgotten servicemen. We have already placed and dedicated six veteran headstones, with many more on the way! Please follow our endeavors on Facebook!
